PBL-BASED TOOLKIT ON INTERCULTURAL COMMUNICATIONS (I02)

The PISH partners' determination to achieve the best quality for the project results led them to improve the already completed "PBL-based Toolkit on Intercultural Communications". Namely, they created **a new professional layout** to make the toolkit more visually attractive. They also gave a digital breath to the Toolkit and made it more engaging by replacing the links of the activities with **QR codes**. Finally, partners translated the Toolkit into their **national languages** (Danish, German, Greek, Italian, Finnish).

STAY TUNED
