

# NEWSLETTER #6

June 2023

## PROJECT STATUS:

The partners are on the verge of completing the Intellectual Output 3, which is the "PBL-based Intercultural Communications Online platform." They are currently conducting final tests on the platform and its accompanying videos, ensuring that it functions seamlessly on both laptops and smartphones. The primary objective of these tests is to verify that the platform is user-friendly, providing a smooth and intuitive experience for all users.

### INTELLECTUAL OUTPUT 4 (IO4): PILOTING AND EVALUATION REPORT

This Intellectual Output details the process and results of the usage of the Training Kits (from IO2) and the interactive platform (from IO3) as they were evaluated by project partners. It encompasses the process, and outcomes, and outlines the project partners' plans to refine the tools and enhance their practicality.

The piloting of IO2 and IO3 outputs will take place at partner organizations and through workshops specifically organized by our partners for teachers, students, and other external stakeholders.

The workshops will be 5 in total (1 per partner country) . Also, altogether the teachers attending will be 15 and the students will number 75.
